This is a sample schedule showing preface or beginning text.

Standard letters / paragraphs etc may be setup using Microsoft Word and can be pasted into the pre amble letter, or the notes at the end of the document.

Schedules may be transferred from one computer system to another, with all relevant 'specials' being transferred automatically.

## Hardware Schedule

Re: A Sample Building  
Project

Unlock and open the door to an economical Door Scheduling solution

Hardware Set Ref: BFH0001

Product	Description	Quantity	Price	Unit	Value	
9000-H208	HINGE	6	13.00	Each	78.00	
9000-TS93 EMF	DOOR CLOSER	2	256.00	Each	512.00	
9000-550.33.3.1	PULL HANDLE	2	25.92	Each	51.84	
9000-57.986FP	HEWI PUSH PLATE - 400X90MM	2	34.50	Each	69.00	
9000-57.986	HEWI KICKPLATE - 900x200MM	4	50.00	Each	200.00	
9000-57.986MRP	MID RAIL PLATE 900x400mm	4	36.03	Each	144.12	
9000-713S	FIRE DOOR KEEP SHUT	4	4.51	Each	18.04	
		<b>1</b>	<b>Doors @</b>	<b>£</b>	<b>1073.00 =</b>	<b>£ 1073.00</b>

### Door Ref      Door Description

G01      Main Entrance

**Internal main entrance doorsets**  
Suitable to adhere to DDA / BS8300 requirements.

## Hardware Schedule

### Re: A Sample Building Project

Unlock and open the door to an economical Door Scheduling solution

---

#### Notes:

Any number of text lines may be entered to be printed at the end of the document.

For example you may wish to include notes regarding VAT(tax), deliveries, kick plate sizes etc.

The schedule reports can be printed with or without prices, to enable you to produce the correct paperwork for the relevant client. For example you may wish to send an un-priced schedule to the Architect, and then print a cost summary only to use as a working document to price the job, and then send several priced copies to various contractors.

Schedules can be printed with long or short descriptions, with either 'external' product codes and descriptions (ie your hidden information), or with all internal references for your own paperwork requirements.

Product data can be imported from an external system to avoid re-keying data, and optional export options are available send the product summary automatically into your existing sales order processing (if your systems allows data to be imported) reducing the risk of operator keying errors.

This sample schedule is for demonstration purposes only and the data contained in the document is purely fictitious and may not represent current products or prices.
